

**OPPORTUNITY  
FOR ALL NATURALISTS, STUDENTS, FACULTY  
AND RESEARCHERS!**

**ONLINE WORKSHOP ON**

**ROLE OF CITIZEN SCIENCE IN  
RESEARCH**

**ORGANISED BY : THE UNIVERSITY OF TRANS-DISCIPLINARY  
HEALTH SCIENCES AND TECHNOLOGY (TDU), BANGALORE**

**INVITED SPEAKERS:**

**Dr. Vijay Barve**

**Florida Museum of Natural History**

**Dr. Narayani Barve**

**Florida Museum of Natural History**

**Date: 19th and 20th September 2020, 6:00 pm-8:30 pm IST**

**[Click here for registration](#)**

**The webinar will be conducted over Zoom**

**E-Certificates will be provided!**

# About

---

## Course Description

Hobbyists have been helping with research for centuries in different capacities. In the colonial era, several European army servicemen and engineers were involved in publishing serious research about the natural history of the regions they visited for work. In ornithology more data is collected by non-scientists than scientists for centuries through breeding bird surveys and winter counts. In recent years a lot of attention is focused on enumerating and evaluating these contributions and actively involving hobby enthusiasts in scientific data collection as well as other areas.

### Learning Objectives:

- To define and introduce the upcoming field of Citizen Science with some real life examples and introduce some active projects.
- Opportunity for course participants to get involved with some interesting projects.
- For researchers, a lot of fresh ideas on how to harness citizen science power for own research or design new citizen science projects to broaden your research reach or scope.

# Schedule

---

## Day 1: 19th September, Saturday

Session 1: Introduction to Citizen Science

Timing: 6:00 pm to 6:30 pm

Session 2: Citizen Science in Biodiversity Inventory and Documentation

Timing: 6:30 pm to 7:30 pm

Session 3: Crowdsourcing scientific research

Timing: 7:30 pm to 8:30 pm

## Day 2: 20th September, Sunday

Session 1: Content Generation and collaborative mapping.

Timing: 6:00 pm to 7:00 pm

Session 2 : Future avenues with citizen science

Timing: 7:00 pm to 8:00 pm

Q & A: 8:00 pm to 8:30 pm

# Registration details

Register using the link below:

[Click here for Registration and Payment](#)

**Fee:** Indian Participants: Rs. 360/- per head

Foreign Participants: \$10 per head

Payment should be made along with registration

**Any queries?**

**Get in touch!**

**Contact us :** Dr. S. Noorunnisa Begum, Associate Professor, CCNR, TDU, Email: noorunnisa.begum@tdu.edu.in, Ph: 9449058869

**Organising Centre:** Centre for Conservation of Natural Resources (CCNR), TDU

**Centre Head:** Dr. M. Abdul Kareem, Email: abdul.kareem@tdu.edu.in

The University of Trans-disciplinary Health Sciences and Technology (TDU) aims to Inspire minds of students and faculty to design participate and execute innovative Trans-disciplinary socially impactful research, education and outreach programs in Integrative Health Sciences and other fields of knowledge.
